Final Test Lab

For this lab, you need to download the lab_FT.html file. Then change the file name as follows:

*yourName*_FT.html; write the name that you have registered for the course.

You are requested to modify the DOM tree of lab_FT.html using ONLY JavaScript as follow:

- The user enters the number of rows and columns of the table that is going to be generated.

- Once the table is generated, you will need to wipe out everything from the screen except the "Add Column" and "Add Row" buttons and the generated table.

- Finally, using "Add column"/"Add Row" buttons, the user is able to add column/row to the table.

Final test lab

Number of rows: _____

Number of cols: _____

[Generate Table]

[Add Column] [Add Row]
